Dear Professor Stepkowski,

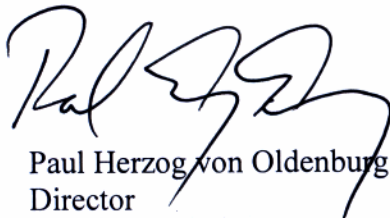

I am very pleased to be able to grant my honorary patronage to the International Law Conference on *Intellectual Foundations and Legal Means for the Protection of Human Life in the Prenatal Phase: A Comparative Perspective* to be held at the University of Warsaw on 24th and 25th September 2012.

The only adequate protection of human beings is from conception/fertilisation that is from the very first moment of life. Thus protection of human life in the prenatal phase—when the child is weakest and deserves the greatest concern—is particularly important in light of the increasing worldwide pressure on national legislatures to implement the so-called "right to abortion".

I believe the Conference will be an excellent opportunity to establish guidelines on how to counteract these attempts within the existing legal framework.

With my best wishes for a successful conference I remain,

Yours sincerely,

Paul Herzog von Oldenburg
Director
